

April 2020

To whom it may concern:

Having worked with the Nighthawk Marketing team since 2014, I highly recommend Nighthawk Marketing as a candidate for website design, development, and marketing services. Their team spearheaded the design, development, and support of the Regenerative Medicine Minnesota (RMM) Drupal website. RMM is funded by the State of Minnesota and co-managed by the University of Minnesota (UMN) and the Mayo Clinic to fund groundbreaking regenerative medicine research in Minnesota.

Nighthawk Marketing has collaborated with UMN and Mayo leadership, staff and researchers to provide expert and reliable website, marketing and video production services. They have delivered their services on-time and in-budget, and have exceeded my expectations on numerous occasions.

Sincerely,

Nancy Morgan
